

# ALLTRONIK BOXES

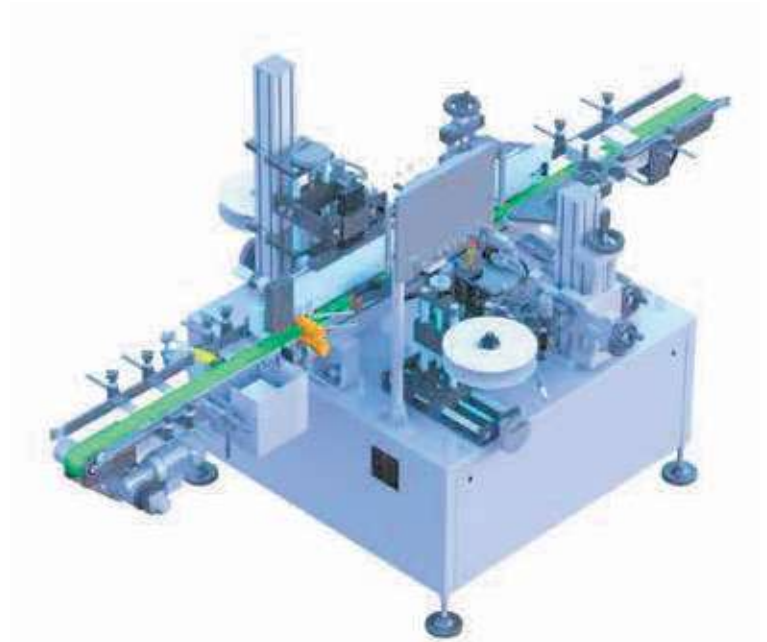

## TRACK & TRACE FOR PHARMA BOXES

ALLTRONIK is an all-in-one serialization and labelling system for pharmaceutical boxes.

It allows both Data Matrix marking and checking, according to ISO standards of quality, plus the application of two tamper evidence labels, on the opposite opening corners of the boxes.

Thanks to a couple of aligner belts, coding and labelling are precise and accurate.

### SPECIFICATIONS:

- Designed to work with different carton sizes, up to 200 x 200 x 200mm.
- Maximum printing area 200 x 12,7mm.
- Maximum label dimensions 40 x 40mm.
- Sensors for transparent labels.
- Power supply 230V / 50Hz / 16A.
- Maximum production speed up to 100 pieces/minute.

### FUNCTIONALITIES:

- Printing, reading and checking in a single unit.
- Precise and accurate labelling.
- Possibility to check the quality grade of printed Data Matrix, the readability of the single characters and the cause of rejection.

### OPTIONS:

- Couple of spacing belts to handle automatic loading from a production line.
- Control of label application including rejector and tray.
- Protection cover.
